WHY SAUDI ARABIA AND UAE?

Saudi Arabia's Vision 2030 economic diversification initiative, launched in 2016, aims to reduce the country's dependence on oil by developing various sectors. It is generating opportunities for foreign companies across industry sectors including renewable energy, transportation, healthcare, advanced technology, and aerospace, among others. The UAE has a dynamic economy and is transforming itself into a knowledge economy. Leading sectors for exports from the Great Lakes St. Lawrence region include aerospace, healthcare, design and construction, and oil and gas, among others.
